TITLE I

GENERAL PRINCIPLES

ARTICLE 2

Respect for democratic principles and human rights as proclaimed in the Universal Declaration of Human Rights and as defined in the Convention for the Protection of Human Rights and Fundamental Freedoms, in the Helsinki Final Act and the Charter of Paris for a New Europe, respect for principles of international law, including full cooperation with the International Criminal Tribunal for the former Yugoslavia (ICTY), and the rule of law as well as the principles of market economy as reflected in the Document of the CSCE Bonn Conference on Economic Cooperation, shall form the basis of the domestic and external policies of the Parties and constitute essential elements of this Agreement.

ARTICLE 3

The Parties consider that the proliferation of weapons of mass destruction (hereinafter also referred to as "WMD") and their means of delivery, both to state and non-state actors, represents one of the most serious threats to international stability and security. The Parties therefore agree to cooperate and to contribute to countering the proliferation of weapons of mass destruction and their means of delivery through full compliance with and national implementation of their existing obligations under international disarmament and non-proliferation Treaties and Agreements and other relevant international obligations. The parties agree that this provision constitutes an essential element of this Agreement and will be part of the political dialogue that will accompany and consolidate these elements.

The Parties furthermore agree to cooperate and to contribute to countering the proliferation of weapons of mass destruction and their means of delivery by:

- taking steps to sign, ratify, or accede to, as appropriate, and fully implement all other relevant international instruments;
- the establishment of an effective system of national export controls, controlling the export as well as the transit of WMD-related goods, including a WMD end-use control on dual use technologies and containing effective sanctions for breaches of export controls.

Political dialogue on this matter may take place on a regional basis.

ARTICLE 4

The contracting parties reaffirm the importance they attach to the implementation of international obligations, notably the full cooperation with ICTY.

ARTICLE 5

International and regional peace and stability, the development of good neighbourly relations, human rights and the respect and protection of minorities are central to the Stabilisation and Association process referred to in the conclusions of the Council of the European Union on 21 June 1999. The conclusion and the implementation of this Agreement come within the framework of the conclusions of the Council of the European Union of 29 April 1997 and are based on the individual merits of Serbia.

ARTICLE 6

Serbia commits itself to continue to foster cooperation and good neighbourly relations with the other countries of the region including an appropriate level of mutual concessions concerning the movement of persons, goods, capital and services as well as the development of projects of common interest, notably those related to border management and combating organised crime, corruption, money laundering, illegal migration and trafficking, including in particular in human beings, small arms and light weapons, as well as illicit drugs. This commitment constitutes a key factor in the development of the relations and cooperation between the Parties and thus contributes to regional stability.

ARTICLE 7

The Parties reaffirm the importance that they attach to the fight against terrorism and the implementation of international obligations in this area.

ARTICLE 8

The association shall be progressively and fully realised over a transitional period of a maximum of six years.

The Stabilisation and Association Council (hereinafter also referred to as "SAC") established under Article 119 shall regularly review, as a rule on an annual basis, the implementation of this Agreement and the adoption and implementation by Serbia of legal, administrative, institutional and economic reforms. This review shall be carried out in the light of the preamble and in accordance with the general principles of this Agreement. It shall take duly into account priorities set in the European Partnership relevant to this Agreement and be in coherence with the mechanisms established under the Stabilisation and Association process, notably the progress report on the Stabilisation and Association process.

On the basis of this review, the SAC will issue recommendations and may take decisions. Where the review identifies particular difficulties, they may be referred to the mechanisms of dispute settlement established under this Agreement.

The full association shall be progressively realised. No later than the third year after the entry into force of this Agreement, the SAC shall make a thorough review of the application of this Agreement. On the basis of this review the SAC shall evaluate progress made by Serbia and may take decisions governing the following stages of association.

The aforementioned review will not apply to the free movement of goods, for which a specific schedule is foreseen in Title IV.

ARTICLE 9

This Agreement shall be fully compatible with and implemented in a manner consistent with the relevant WTO provisions, in particular Article XXIV of the General Agreement on Tariffs and Trade 1994 (GATT 1994) and Article V of the General Agreement on Trade in Services (GATS).

TITLE II

POLITICAL DIALOGUE

 - (c) regional cooperation and the development of good neighbourly relations;
 - (d) common views on security and stability in Europe, including cooperation in the areas covered by the CFSP of the European Union.

ARTICLE 11

2. At the request of the Parties, political dialogue may also take place in the following forms:
 - (a) meetings, where necessary, of senior officials representing Serbia, on the one hand, and the Presidency of the Council of the European Union, the Secretary General/High Representative for the Common Foreign and Security Policy and the Commission of the European Communities (hereinafter referred to as "European Commission"), on the other;
 - (b) taking full advantage of all diplomatic channels between the Parties, including appropriate contacts in third countries and within the United Nations, the OSCE, the Council of Europe and other international fora;
 - (c) any other means which would make a useful contribution to consolidating, developing and stepping up this dialogue, including those identified in the Thessaloniki agenda, adopted in the Conclusions of the European Council in Thessaloniki on 19 and 20 June 2003.

ARTICLE 12

A political dialogue at parliamentary level shall take place within the framework of the Stabilisation and Association Parliamentary Committee established under Article 125.

ARTICLE 13

Political dialogue may take place within a multilateral framework, and as a regional dialogue including other countries of the region, including in the framework of the EU-Western Balkan forum.

TITLE III

REGIONAL COOPERATION

ARTICLE 14

In conformity with its commitment to international and regional peace and stability, and to the development of good neighbourly relations, Serbia shall actively promote regional cooperation. The Community assistance programmes may support projects having a regional or cross-border dimension through its technical assistance programmes.

Whenever Serbia intends to enhance its cooperation with one of the countries mentioned in Articles 15, 16 and 17, it shall inform and consult the Community and its Member States according to the provisions laid down in Title X.

Serbia shall implement fully the Central European Free Trade Agreement signed in Bucharest on 19 December 2006.

ARTICLE 15

Cooperation with other countries having signed a Stabilisation and Association Agreement

After the signature of this Agreement, Serbia shall start negotiations with the countries which have already signed a Stabilisation and Association Agreement with a view to concluding bilateral conventions on regional cooperation, the aim of which shall be to enhance the scope of cooperation between the countries concerned.

These conventions shall contain provisions for the creation of the necessary institutional mechanisms, as appropriate.

These conventions shall be concluded within two years after the entry into force of this Agreement. Readiness by Serbia to conclude such conventions will be a condition for the further development of the relations between Serbia and the European Union.

Serbia shall initiate similar negotiations with the remaining countries of the region once these countries will have signed a Stabilisation and Association Agreement.

ARTICLE 16

Cooperation with other countries concerned by the Stabilisation and Association process

Serbia shall pursue regional cooperation with the other States concerned by the Stabilisation and Association process in some or all the fields of cooperation covered by this Agreement, and notably those of common interest. Such cooperation should always be compatible with the principles and objectives of this Agreement.

ARTICLE 17

Cooperation with other countries candidate for EU accession not concerned by the Sap

1. Serbia should foster its cooperation and conclude a convention on regional cooperation with any country candidate for EU accession in any of the fields of cooperation covered by this Agreement. Such conventions should aim to gradually align bilateral relations between Serbia and that country with the relevant part of the relations between the Community and its Member States and that country.
2. Serbia shall start negotiations with Turkey which has established a customs union with the Community, with a view to concluding, on a mutually advantageous basis, an Agreement establishing a free trade area in accordance with Article XXIV of the GATT 1994 as well as liberalising the establishment and supply of services between them at an equivalent level of this Agreement in accordance with Article V of the GATS.

These negotiations should be opened as soon as possible, with a view to concluding the abovementioned Agreement before the end of the transitional period referred to in Article 18(1).

ARTICLE 40

Dumping and subsidy

1. None of the provisions in this Agreement shall prevent any of the Parties from taking trade defence action in accordance with paragraph 2 of this Article and Article 41.

2. If one of the Parties finds that dumping and/or countervailable subsidisation is taking place in trade with the other Party, that Party may take appropriate measures against this practice in accordance with the WTO Agreement on Implementation of Article VI of the GATT 1994 or the WTO Agreement on Subsidies and Countervailing Measures and the respective related internal legislation.

ARTICLE 41

Safeguards clause

1. The provisions of Article XIX GATT 1994 and the WTO Agreement on Safeguards are applicable between the parties.

2. Notwithstanding paragraph 1 of this Article, where any product of one Party is being imported into the territory of the other Party in such increased quantities and under such conditions as to cause or threaten to cause:

- (a) serious injury to the domestic industry of like or directly competitive products in the territory of the importing Party or
- (b) serious disturbances in any sector of the economy or difficulties which could bring about serious deterioration in the economic situation of a region of the importing Party,

the importing Party may take appropriate bilateral safeguard measures under the conditions and in accordance with the procedures laid down in this Article.

3. Bilateral safeguard measures directed at imports from the other Party shall not exceed what is necessary to remedy the problems, as defined in paragraph 2, which have arisen as a result of application of this Agreement. The safeguard measure adopted should consist of a suspension in the increase or in the reduction of the margins of preferences provided for under this Agreement for the product concerned up to a maximum limit corresponding to the basic duty referred to in Article 18 paragraph 4(a) and (b) and paragraph 5 for the same product. Such measures shall contain clear elements progressively leading to their elimination at the end of the set period, at the latest, and shall not be taken for a period exceeding two years.

In very exceptional circumstances, measures may be extended for a further period of maximum two years. No bilateral safeguard measure shall be applied to the import of a product that has previously been subject to such a measure for a period of time equal to that during which such measure had been previously applied, provided that the period of non-application is at least two years since the expiry of the measure.

4. In the cases specified in this Article, before taking the measures provided for therein or, in the cases to which paragraph 5(b) of this Article applies, as soon as possible, the Community on the one part or Serbia on the other part, shall supply the Stabilisation and Association Council with all relevant information required for a thorough examination of the situation, with a view to seeking a solution acceptable to the Parties concerned.

5. For the implementation of the paragraphs 1, 2, 3 and 4 the following provisions shall apply:

- (a) the problems arising from the situation referred to in this Article shall be immediately referred for examination to the Stabilisation and Association Council, which may take any decisions needed to put an end to such problems.

If the Stabilisation and Association Council or the exporting Party has not taken a decision putting an end to the problems, or no other satisfactory solution has been reached within 30 days of the matter being referred to the Stabilisation and Association Council, the importing Party may adopt the appropriate measures to remedy the problem in accordance with this Article. In the selection of safeguard measures, priority must be given to those which least disturb the functioning of the arrangements established in this Agreement. Safeguard measures applied in accordance with Article XIX GATT 1994 and the WTO Agreement on Safeguards shall preserve the level/margin of preference granted under this Agreement.

- (b) Where exceptional and critical circumstances requiring immediate action make prior information or examination, as the case may be, impossible, the Party concerned may, in the situations specified in this Article, apply forthwith provisional measures necessary to deal with the situation and shall inform the other Party immediately thereof.

The safeguard measures shall be notified immediately to the Stabilisation and Association Council and shall be the subject of periodic consultations within that body, particularly with a view to establishing a timetable for their abolition as soon as circumstances permit.

6. In the event of the Community of the one part or Serbia of the other part subjecting imports of products liable to give rise to the problems referred to in this Article to an administrative procedure having as its purpose the rapid provision of information on the trend of trade flows, it shall inform the other Party.

ARTICLE 42

Shortage clause

1. Where compliance with the provisions of this Title leads to:
- (a) a critical shortage, or threat thereof, of foodstuffs or other products essential to the exporting Party; or

- (b) re-export to a third country of a product against which the exporting Party maintains quantitative export restrictions, export duties or measures or charges having equivalent effect, and where the situations referred to above give rise, or are likely to give rise to major difficulties for the exporting Party

that Party may take appropriate measures under the conditions and in accordance with the procedures laid down in this Article.

2. In the selection of measures, priority must be given to those which least disturb the functioning of the arrangements in this Agreement. Such measures shall not be applied in a manner which would constitute a means of arbitrary or unjustifiable discrimination where the same conditions prevail, or a disguised restriction on trade and shall be eliminated when the conditions no longer justify their maintenance.

3. Before taking the measures provided for in paragraph 1 or, as soon as possible in cases to which paragraph 4 applies, the Community or Serbia, shall supply the Stabilisation and Association Council with all relevant information, with a view to seeking a solution acceptable to the Parties. The Parties within the Stabilisation and Association Council may agree on any means needed to put an end to the difficulties. If no agreement is reached within 30 days of the matter being referred to the Stabilisation and Association Council, the exporting Party may apply measures under this Article on the exportation of the product concerned.

4. Where exceptional and critical circumstances requiring immediate action make prior information or examination, as the case may be, impossible, the Community or Serbia may apply forthwith the precautionary measures necessary to deal with the situation and shall inform the other Party immediately thereof.

5. Any measures applied pursuant to this Article shall be immediately notified to the Stabilisation and Association Council and shall be the subject of periodic consultations within that body, particularly with a view to establishing a timetable for their elimination as soon as circumstances permit.

ARTICLE 43

State monopolies

Serbia shall progressively adjust any state monopolies of a commercial character so as to ensure that, three years after the entry into force of this Agreement, no discrimination regarding the conditions under which goods are procured and marketed exists between nationals of the Member States of the European Union and Serbia.

ARTICLE 44

Rules of origin

Except if otherwise stipulated in this Agreement, Protocol 3 lays down the rules of origin for the application of the provisions of this Agreement.

ARTICLE 45

Restrictions authorised

This Agreement shall not preclude prohibitions or restrictions on imports, exports or goods in transit justified on grounds of public morality, public policy or public security; the protection of health and life of humans, animals or plants; the protection of national treasures of artistic, historic or archaeological value or the protection of intellectual, industrial and commercial property, or rules relating to gold and silver. Such prohibitions or restrictions shall not, however, constitute a means of arbitrary discrimination or a disguised restriction on trade between the Parties.

ARTICLE 46

Failure to provide administrative cooperation

1. The Parties agree that administrative cooperation is essential for the implementation and the control of the preferential treatment granted under this Title and underline their commitment to combat irregularities and fraud in customs and related matters.
2. Where a Party has made a finding, on the basis of objective information, of a failure to provide administrative cooperation and/or of irregularities or fraud under this Title, the Party concerned may temporarily suspend the relevant preferential treatment of the product(s) concerned in accordance with this Article.

3. For the purpose of this Article a failure to provide administrative cooperation shall mean, *inter alia*:

- (a) a repeated failure to respect the obligations to verify the originating status of the product(s) concerned;
- (b) a repeated refusal or undue delay in carrying out and/or communicating the results of subsequent verification of the proof of origin;
- (c) a repeated refusal or undue delay in obtaining authorisation to conduct administrative cooperation missions to verify the authenticity of documents or accuracy of information relevant to the granting of the preferential treatment in question.

For the purpose of this Article a finding of irregularities or fraud may be made, *inter alia*, where there is a rapid increase, without satisfactory explanation, in imports of goods exceeding the usual level of production and export capacity of the other Party, which is linked to objective information concerning irregularities or fraud.

4. The application of a temporary suspension shall be subject to the following conditions:
- (a) the Party which has made a finding, on the basis of objective information, of a failure to provide administrative cooperation and/or of irregularities or fraud shall without undue delay notify the Stabilisation and Association Committee of its finding together with the objective information and enter into consultations within the Stabilisation and Association Committee, on the basis of all relevant information and objective findings, with a view to reaching a solution acceptable to both Parties.
 - (b) Where the Parties have entered into consultations within the Stabilisation and Association Committee as above and have failed to agree on an acceptable solution within three months following the notification, the Party concerned may temporarily suspend the relevant preferential treatment of the product(s) concerned. A temporary suspension shall be notified to the Stabilisation and Association Committee without undue delay.
 - (c) Temporary suspensions under this Article shall be limited to the minimum necessary to protect the financial interests of the Party concerned. They shall not exceed a period of six months, which may be renewed. Temporary suspensions shall be notified immediately after their adoption to the Stabilisation and Association Committee. They shall be subject to periodic consultations within the Stabilisation and Association Committee in particular with a view to their termination as soon as the conditions for their application no longer prevail.

5. At the same time as the notification to the Stabilisation and Association Committee under paragraph 4(a) of this Article, the Party concerned should publish a notice to importers in its Official Journal. The notice to importers should indicate for the product concerned that there is a finding, on the basis of objective information, of a failure to provide administrative cooperation and/or of irregularities or fraud.

ARTICLE 47

In case of error by the competent authorities in the proper management of the preferential system at export, and in particular in the application of the provisions of Protocol 3 to the present Agreement where this error leads to consequences in terms of import duties, the Contracting Party facing such consequences may request the Stabilisation and Association Council to examine the possibilities of adopting all appropriate measures with a view to resolving the situation.

ARTICLE 48

The application of this Agreement shall be without prejudice to the application of the provisions of Community law to the Canary Islands.

2. Such measures shall not be used as a means of avoiding the Party's obligations under this Agreement.
3. Nothing in this Agreement shall be construed to require a Party to disclose information relating to the affairs and accounts of individual customers or any confidential or proprietary information in the possession of public entities.

ARTICLE 56

1. The provisions of Articles 53 and 54 do not preclude the application by a Party of particular rules concerning the establishment and operation in its territory of branches of companies of another Party not incorporated in the territory of the first Party, which are justified by legal or technical differences between such branches as compared to branches of companies incorporated in its territory or, as regards financial services, for prudential reasons.
2. The difference in treatment shall not go beyond what is strictly necessary as a result of such legal or technical differences or, as regards financial services, for prudential reasons.

ARTICLE 57

In order to make it easier for Community nationals and nationals from Serbia to take up and pursue regulated professional activities in Serbia and in the Community respectively, the Stabilisation and Association Council shall examine which steps are necessary for the mutual recognition of qualifications. It may take all necessary measures to that end.

ARTICLE 58

1. A Community company established in the territory of Serbia or a Serbian company established in the Community shall be entitled to employ, or have employed by one of its subsidiaries or branches, in accordance with the legislation in force in the host territory of establishment, in the territory of the Republic of Serbia and the Community respectively, employees who are nationals of the Member States or nationals from Serbia respectively, provided that such employees are key personnel as defined in paragraph 2 and that they are employed exclusively by companies, subsidiaries or branches. The residence and work permits of such employees shall cover only the period of such employment.

2. Key personnel of the abovementioned companies herein referred to as "organisations" are "intra-corporate transferees" as defined in point (c) of this paragraph in the following categories, provided that the organisation is a legal person and that the persons concerned have been employed by it or have been partners in it (other than as majority shareholders), for at least one year immediately preceding such movement:

 - (c) An "intra-corporate transferee" is defined as a natural person working within an organisation in the territory of a Party, and being temporarily transferred in the context of pursuit of economic activities in the territory of the other Party; the organisation concerned must have its principal place of business in the territory of a Party and the transfer be to an establishment (branch, subsidiary) of that organisation, effectively pursuing like economic activities in the territory of the other Party.
3. CHAPTER III

SUPPLY OF SERVICES

ARTICLE 59

1. The Community and Serbia undertake, in accordance with the following provisions, to take the necessary steps to allow progressively the supply of services by Community companies, Serbian companies or by Community nationals or nationals of Serbia which are established in the territory of a Party other than that of the person for whom the services are intended.
2. In step with the liberalisation process mentioned in paragraph 1, the Parties shall permit the temporary movement of natural persons providing the service or who are employed by the service provider as key personnel as defined in Article 58, including natural persons who are representatives of a Community or Serbian company or national and are seeking temporary entry for the purpose of negotiating for the sale of services or entering into agreements to sell services for that service provider, where those representatives will not be engaged in making direct sales to the general public or in supplying services themselves.

3. After four years, the Stabilisation and Association Council shall take the measures necessary to progressively implement the provisions of paragraph 1. Account shall be taken of the progress achieved by the Parties in the approximation of their laws.

ARTICLE 60

1. The Parties shall not take any measures or actions which render the conditions for the supply of services by Community and Serbia nationals or companies which are established in a Party other than that of the person for whom the services are intended significantly more restrictive as compared to the situation existing on the day preceding the day of entry into force of this Agreement.

2. If one Party is of the view that measures introduced by the other Party since the entry into force of this Agreement result in a situation which is significantly more restrictive in respect of supply of services as compared with the situation existing at the date of entry into force of this Agreement, such first Party may request the other Party to enter into consultations.

ARTICLE 61

With regard to supply of transport services between the Community and Serbia, the following provisions shall apply:

1. With regard to land transport, Protocol 4 lays down the rules applicable to the relationship between the Parties in order to ensure, particularly, unrestricted road transit traffic across Serbia and the Community as a whole, the effective application of the principle of non discrimination and progressive harmonisation of the transport legislation of Serbia with that of the Community.
2. With regard to international maritime transport, the Parties undertake to apply effectively the principle of unrestricted access to the international maritime markets and trades on a commercial basis, and to respect international and European obligations in the field of safety, security and environmental standards.

The Parties affirm their commitment to a freely competitive environment as an essential feature of international maritime transport.

3. In applying the principles of paragraph 2, the Parties shall:
 - (a) not introduce cargo-sharing clauses in future bilateral Agreements with third countries;
 - (b) abolish, upon the entry into force of this Agreement, all unilateral measures and administrative, technical and other obstacles that could have restrictive or discriminatory effects on the free supply of services in international maritime transport;

(c) Each Party shall grant, inter alia, no less favourable treatment for the ships operated by nationals or companies of the other Party than that accorded to a Party's own ships with regard to access to ports open to international trade, the use of infrastructure and auxiliary maritime services of the ports, as well as related fees and charges, customs facilities and the assignment of berths and facilities for loading and unloading.

4. With a view to ensuring a coordinated development and progressive liberalisation of transport between the Parties adapted to their reciprocal commercial needs, the conditions of mutual market access in air transport shall be dealt with by the ECAA.

5. Prior to the conclusion of the ECAA, the Parties shall not take any measures or actions which are more restrictive or discriminatory as compared with the situation existing prior to the entry into force of this Agreement.

6. Serbia shall adapt its legislation, including administrative, technical and other rules, to that of the Community existing at any time in the field of air, maritime, inland waterway and land transport insofar as it serves liberalisation purposes and mutual access to markets of the Parties and facilitates the movement of passengers and of goods.

7. In step with the common progress in the achievement of the objectives of this Chapter, the Stabilisation and Association Council shall examine ways of creating the conditions necessary for improving freedom to provide air, land and inland waterway transport services.

CHAPTER IV

CURRENT PAYMENTS AND MOVEMENT OF CAPITAL

ARTICLE 62

The Parties undertake to authorise, in freely convertible currency, in accordance with the provisions of Article VIII of the Articles of the Agreement of the International Monetary Fund, any payments and transfers on the current account of balance of payments between the Community and Serbia.

ARTICLE 63

1. With regard to transactions on the capital and financial account of balance of payments, from the entry into force of this Agreement, the Parties shall ensure the free movement of capital relating to direct investments made in companies formed in accordance with the laws of the host country and investments made in accordance with the provisions of Chapter II of Title V, and the liquidation or repatriation of these investments and of any profit stemming there from.
2. With regard to transactions on the capital and financial account of balance of payments, from the entry into force of this Agreement, the Parties shall ensure the free movement of capital relating to credits related to commercial transactions or to the provision of services in which a resident of one of the Parties is participating, and to financial loans and credits, with maturity longer than a year.

3. As from the entry into force of this Agreement, Serbia shall authorise, by making full and expedient use of its existing procedures, the acquisition of real estate in Serbia by nationals of Member States of the European Union. Within four years from the entry into force of this Agreement, Serbia shall progressively adjust its legislation concerning the acquisition of real estate in its territory by nationals of the Member States of the European Union to ensure the same treatment as compared to its own nationals.

4. The Community and Serbia shall also ensure, as from four years after the entry into force of this Agreement, free movement of capital relating to portfolio investment and financial loans and credits with maturity shorter than a year.

5. Without prejudice to paragraph 1, the Parties shall not introduce any new restrictions on the movement of capital and current payments between residents of the Community and Serbia and shall not make the existing arrangements more restrictive.

6. Without prejudice to the provisions of Article 62 and of this Article, where, in exceptional circumstances, movements of capital between the Community and Serbia cause, or threaten to cause, serious difficulties for the operation of exchange rate policy or monetary policy in the Community or Serbia, the Community and Serbia, respectively, may take safeguard measures with regard to movements of capital between the Community and Serbia for a period not exceeding six months if such measures are strictly necessary.

7. Nothing in the above provisions shall be taken to limit the rights of economic operators of the Parties from benefiting from any more favourable treatment that may be provided for in any existing bilateral or multilateral Agreement involving Parties to this Agreement.

8. The Parties shall consult each other with a view to facilitating the movement of capital between the Community and Serbia in order to promote the objectives of this Agreement.

ARTICLE 64

1. During the first four years following the date of entry into force of this Agreement, the Community and Serbia shall take measures permitting the creation of the necessary conditions for the further gradual application of Community rules on the free movement of capital.

2. By the end of the fourth year following the date of entry into force of this Agreement, the Stabilisation and Association Council shall determine the detailed arrangements for full application of Community rules on the movement of capital in Serbia.

CHAPTER V

GENERAL PROVISIONS

ARTICLE 65

1. The provisions of this Title shall be applied subject to limitations justified on grounds of public policy, public security or public health.
2. They shall not apply to activities that in the territory of any of the Parties are connected, even occasionally, with the exercise of official authority.

ARTICLE 66

For the purpose of this Title, nothing in this Agreement shall prevent the Parties from applying their laws and regulations regarding entry and stay, employment, working conditions, establishment of natural persons and supply of services, notably insofar as the granting, renewal or refusal of a residence permit is concerned, provided that, in so doing, they do not apply them in such a manner as to nullify or impair the benefits accruing to any Party under the terms of a specific provision of this Agreement. This provision shall be without prejudice to the application of Article 65.

ARTICLE 67

Companies which are controlled and exclusively owned jointly by Serbian companies, or nationals of Serbia and Community companies or nationals shall also be covered by the provisions of this Title.

ARTICLE 68

1. The Most-Favoured-Nation treatment granted in accordance with the provisions of this Title shall not apply to the tax advantages that the Parties are providing or will provide in the future on the basis of Agreements designed to avoid double taxation or other tax arrangements.
2. None of the provisions of this Title shall be construed to prevent the adoption or enforcement by the Parties of any measure aimed at preventing the avoidance or evasion of taxes pursuant to the tax provisions of Agreements to avoid double taxation and other tax arrangements or domestic fiscal legislation.
3. None of the provisions of this Title shall be construed to prevent Member States or Serbia from applying the relevant provisions of their fiscal legislation, from distinguishing between taxpayers who are not in identical situations, in particular as regards their place of residence.

ARTICLE 69

1. The Parties shall endeavour wherever possible to avoid the imposition of restrictive measures, including measures relating to imports, for balance of payments purposes. A Party adopting such measures shall present as soon as possible to the other Party a timetable for their removal.
2. Where one or more Member States or Serbia is in serious balance of payments difficulties, or under imminent threat thereof, the Community and Serbia may, in accordance with the conditions established under the WTO Agreement, adopt restrictive measures, including measures relating to imports, which shall be of limited duration and may not go beyond what is strictly necessary to remedy the balance of payments situation. The Community and Serbia shall inform the other Party forthwith.
3. Any restrictive measures shall not apply to transfers related to investment and in particular to the repatriation of amounts invested or reinvested or any kind of revenues stemming therefrom.

ARTICLE 70

The provisions of this Title shall be progressively adjusted, notably in the light of requirements arising from Article V of the GATS.

ARTICLE 71

The provisions of this Agreement shall not prejudice the application by any Party of any measure necessary to prevent the circumvention of its measures concerning third-country access to its market through the provisions of this Agreement.

TITLE VI

APPROXIMATION OF LAWS, LAW ENFORCEMENT AND COMPETITION RULES

ARTICLE 72

1. The Parties recognise the importance of the approximation of the existing legislation in Serbia to that of the Community and of its effective implementation. Serbia shall endeavour to ensure that its existing laws and future legislation will be gradually made compatible with the Community acquis. Serbia shall ensure that existing and future legislation will be properly implemented and enforced.
2. This approximation shall start on the date of signing of this Agreement, and shall gradually extend to all the elements of the Community acquis referred to in this Agreement by the end of the transitional period defined in Article 8 of this Agreement.
3. Approximation will, at an early stage, focus on fundamental elements of the Internal Market acquis, Justice, Freedom and Security as well as on other trade-related areas. At a further stage, Serbia shall focus on the remaining parts of the acquis.

ARTICLE 126

Within the scope of this Agreement, each Party undertakes to ensure that natural and legal persons of the other Party have access free of discrimination in relation to its own nationals to the competent courts and administrative organs of the Parties to defend their individual rights and their property rights.

ARTICLE 127

Nothing in this Agreement shall prevent a Party from taking any measures:

- (a) which it considers necessary to prevent the disclosure of information contrary to its essential security interests;
- (b) which relate to the production of, or trade in, arms, munitions or war materials or to research, development or production indispensable for defence purposes, provided that such measures do not impair the conditions of competition in respect of products not intended for specifically military purposes;
- (c) which it considers essential to its own security in the event of serious internal disturbances affecting the maintenance of law and order, in time of war or serious international tension constituting threat of war or in order to carry out obligations it has accepted for the purpose of maintaining peace and international security.

ARTICLE 128

1. In the fields covered by this Agreement and without prejudice to any special provisions contained therein:
 - (a) the arrangements applied by Serbia in respect of the Community shall not give rise to any discrimination between the Member States, their nationals, companies or firms;

ARTICLE 129

1. The Parties shall take any general or specific measures required to fulfil their obligations under this Agreement. They shall ensure that the objectives set out in this Agreement are attained.
2. The Parties agree to consult promptly through appropriate channels at the request of either Party to discuss any matter concerning the interpretation or implementation of this Agreement and other relevant aspects of the relations between the Parties.

3. Each Party shall refer to the Stabilisation and Association Council any dispute relating to the application or interpretation of this Agreement. In that case, Article 130 and, as the case may be, Protocol 7 shall apply.

The Stabilisation and Association Council may settle the dispute by means of a binding decision.

4. If either Party considers that the other Party has failed to fulfil an obligation under this Agreement, it may take appropriate measures. Before so doing, except in cases of special urgency, it shall supply the Stabilisation and Association Council with all relevant information required for a thorough examination of the situation with a view to seeking a solution acceptable to the Parties.

In the selection of measures, priority must be given to those which least disturb the functioning of this Agreement. These measures shall be notified immediately to the Stabilisation and Association Council and shall be the subject of consultations if the other Party so requests within the Stabilisation and Association Council, the Stabilisation and Association Committee or any other body set up on the basis of Articles 123 or 124.

5. The provisions of paragraphs 2, 3 and 4 shall in no way affect and are without prejudice to Articles 32, 40, 41, 42, 46 and Protocol 3 (Definition of the concept of originating products and methods of administrative cooperation).

ARTICLE 130

Where a Party considers that a measure adopted by the other Party, or a failure of the other Party to act, constitutes a breach of its obligations under this Agreement, the formal request that the dispute be resolved shall give the reasons for this opinion and indicate, as the case may be, that the Party may adopt measures as provided for in Article 129, paragraph 4.

2. The Parties shall endeavour to resolve the dispute by entering into good faith consultations within the Stabilisation and Association Council and other bodies as provided in paragraph 3, with the aim of reaching as soon as possible a mutually acceptable solution.

3. The Parties shall provide the Stabilisation and Association Council with all relevant information required for a thorough examination of the situation.

As long as the dispute is not resolved, it shall be discussed at every meeting of the Stabilisation and Association Council, unless the arbitration procedure as provided for in Protocol 7 has been initiated. A dispute shall be deemed to be resolved when the Stabilisation and Association Council has taken a binding decision to settle the matter as provided for in Article 129, paragraph 3, or when it has declared that there is no dispute anymore.

Consultations on a dispute can also be held at any meeting of the Stabilisation and Association Committee or any other relevant committee or body set up on the basis of Articles 123 or 124, as agreed between the Parties or at the request of any of the Parties. Consultations may also be held in writing.

All information disclosed during the consultations shall remain confidential.

4. For matters within the scope of application of Protocol 7, any Party may submit the matter in dispute for settlement through arbitration in accordance with that Protocol, when the Parties have failed to resolve the dispute within two months after the initiation of the dispute settlement procedure in accordance with paragraph 1.

ARTICLE 131

This Agreement shall not, until equivalent rights for individuals and economic operators have been achieved under this Agreement, affect rights ensured to them through existing Agreements binding one or more Member States, on the one hand, and Serbia, on the other.

If the description or presentation of a wine, spirit drink or aromatised wine in particular on the labelling, in official or commercial documents or in advertising, is in breach of the Agreement in this Annex, the Parties shall apply the necessary administrative measures and/or shall initiate legal proceedings with a view to combating unfair competition or preventing the wrongful use of the protected name in any other way.
2. The measures and proceedings referred to in paragraph 1 shall be taken in particular:
 - (a) where descriptions or translation of description, names, inscriptions or illustrations relating to wine, spirit or aromatised wine drinks whose names are protected under the Agreement in this Annex are used, directly or indirectly, which give false or misleading information as to the origin, nature or quality of the wine, spirit drink or aromatised wine.
 - (b) where, for packaging, containers are used which are misleading as to the origin of the wine.
3. If one of the Parties has reason to suspect that:
 - (a) a wine, spirit drink or aromatised wine as defined in Article 2, being or having been traded in Serbia and the Community, does not comply with rules governing the wine, spirit drink or aromatised wine sector in the Community or in Serbia or with this Agreement; and

- (b) this non-compliance is of particular interest to the other Party and could result in administrative measures and/or legal proceedings being taken,

it shall immediately inform the representative body of the other Party.

4. The information to be provided in accordance with paragraph 3 shall include details of the non-compliance with the rules governing the wine, spirit drink and aromatised wine sector of the Party and/or the Agreement in this Annex and shall be accompanied by official, commercial or other appropriate documents, with details of any administrative measures or legal proceedings that may, if necessary, be taken.

ARTICLE 14

Consultations

1. The Parties shall enter into consultations if one of them considers that the other has failed to fulfil an obligation under the Agreement in this Annex.
2. The Party which requests the consultations shall provide the other Party with all the information necessary for a detailed examination of the case in question.
3. In cases where any delay could endanger human health or impair the effectiveness of measures to control fraud, appropriate interim protective measures may be taken, without prior consultation, provided that consultations are held immediately after the taking of these measures.

4. If, following the consultations provided for in paragraphs 1 and 3, the Parties have not reached agreement, the Party which requested the consultations or which took the measures referred to in paragraph 3 may take appropriate measures in accordance with Article 129 of the Stabilisation and Association Agreement so as to permit the proper application of the Agreement in this Annex.

2. This method must be able to ensure that, for a specific reference-period, the number of products obtained which could be considered as "originating" is the same as that which would have been obtained if there had been physical segregation of the stocks.

3. The customs authorities may grant such authorisation, subject to any conditions deemed appropriate.
4. This method is recorded and applied on the basis of the general accounting principles applicable in the country where the product was manufactured.
5. The beneficiary of this facilitation may issue or apply for proofs of origin, as the case may be, for the quantity of products which may be considered as originating. At the request of the customs authorities, the beneficiary shall provide a statement of how the quantities have been managed.
6. The customs authorities shall monitor the use made of the authorisation and may withdraw it at any time whenever the beneficiary makes improper use of the authorisation in any manner whatsoever or fails to fulfil any of the other conditions laid down in this Protocol.

2. Proofs of origin which are submitted to the customs authorities of the importing country after the final date for presentation specified in paragraph 1 may be accepted for the purpose of applying preferential treatment, where the failure to submit these documents by the final date set is due to exceptional circumstances.
3. In other cases of belated presentation, the customs authorities of the importing country may accept the proofs of origin where the products have been submitted before the said final date.

ARTICLE 25

Submission of proof of origin

Proofs of origin shall be submitted to the customs authorities of the importing country in accordance with the procedures applicable in that country. The said authorities may require a translation of a proof of origin and may also require the import declaration to be accompanied by a statement from the importer to the effect that the products meet the conditions required for the implementation of this Agreement.

ARTICLE 26

Importation by instalments

Where, at the request of the importer and on the conditions laid down by the customs authorities of the importing country, dismantled or non-assembled products within the meaning of General Rule 2(a) of the Harmonised System falling within Sections XVI and XVII or headings 7308 and 9406 of the Harmonised System are imported by instalments, a single proof of origin for such products shall be submitted to the customs authorities upon importation of the first instalment.

ARTICLE 27

Exemptions from proof of origin

1. Products sent as small packages from private persons to private persons or forming part of travellers' personal luggage shall be admitted as originating products without requiring the submission of a proof of origin, provided that such products are not imported by way of trade and have been declared as meeting the requirements of this Protocol and where there is no doubt as to the veracity of such a declaration. In the case of products sent by post, this declaration can be made on the customs declaration CN22/CN23 or on a sheet of paper annexed to that document.
2. Imports which are occasional and consist solely of products for the personal use of the recipients or travellers or their families shall not be considered as imports by way of trade if it is evident from the nature and quantity of the products that no commercial purpose is in view.
3. Furthermore, the total value of these products shall not exceed EUR 500 in the case of small packages or EUR 1 200 in the case of products forming part of travellers' personal luggage.

ARTICLE 28

Supporting documents+

The documents referred to in Articles 17(3) and 22(3) used for the purpose of proving that products covered by a movement certificate EUR.1 or an invoice declaration can be considered as products originating in the Community, in Serbia or in one of the other countries or territories referred to in Articles 3 and 4 and fulfil the other requirements of this Protocol may consist *inter alia* of the following:

- (a) direct evidence of the processes carried out by the exporter or supplier to obtain the goods concerned, contained for example in his accounts or internal book-keeping;
- (b) documents proving the originating status of materials used, issued or made out in the Community or in Serbia where these documents are used in accordance with domestic law;
- (c) documents proving the working or processing of materials in the Community or in Serbia, issued or made out in the Community or in Serbia, where these documents are used in accordance with domestic law;
- (d) movement certificates EUR.1 or invoice declarations proving the originating status of materials used, issued or made out in the Community or in Serbia in accordance with this Protocol, or in one of the other countries or territories referred to in Articles 3 and 4, in accordance with rules of origin which are identical to the rules in this Protocol;

- (e) appropriate evidence concerning working or processing undergone outside the Community or Serbia by application of Article 12, proving that the requirements of that Article have been satisfied.

ARTICLE 29

Preservation of proof of origin and supporting documents

1. The exporter applying for the issue of a movement certificate EUR.1 shall keep for at least three years the documents referred to in Article 17(3).
2. The exporter making out an invoice declaration shall keep for at least three years a copy of this invoice declaration as well as the documents referred to in Article 22(3).
3. The customs authorities of the exporting country issuing a movement certificate EUR.1 shall keep for at least three years the application form referred to in Article 17(2).
4. The customs authorities of the importing country shall keep for at least three years the movement certificates EUR.1 and the invoice declarations submitted to them.

ARTICLE 30

Discrepancies and formal errors

1. The discovery of slight discrepancies between the statements made in the proof of origin and those made in the documents submitted to the customs office for the purpose of carrying out the formalities for importing the products shall not *ipso facto* render the proof of origin null and void if it is duly established that this document does correspond to the products submitted.
2. Obvious formal errors such as typing errors on a proof of origin should not cause this document to be rejected if these errors are not such as to create doubts concerning the correctness of the statements made in the document.

ARTICLE 31

Amounts expressed in euro

1. For the application of the provisions of Article 22(1)(b) and Article 27(3) in cases where products are invoiced in a currency other than euro, amounts in the national currencies of the Member States of the Community, of Serbia and of the other countries or territories referred to in Articles 3 and 4 equivalent to the amounts expressed in euro shall be fixed annually by each of the countries concerned.

2. A consignment shall benefit from the provisions of Article 22(1)(b) or Article 27(3) by reference to the currency in which the invoice is drawn up, according to the amount fixed by the country concerned.

3. The amounts to be used in any given national currency shall be the equivalent in that currency of the amounts expressed in euro as at the first working day of October. The amounts shall be communicated to the European Commission by 15 October and shall apply from 1 January the following year. The European Commission shall notify all countries concerned of the relevant amounts.

4. A country may round up or down the amount resulting from the conversion into its national currency of an amount expressed in euro. The rounded-off amount may not differ from the amount resulting from the conversion by more than 5 %. A country may retain unchanged its national currency equivalent of an amount expressed in euro if, at the time of the annual adjustment provided for in paragraph 3, the conversion of that amount, prior to any rounding-off, results in an increase of less than 15 % in the national currency equivalent. The national currency equivalent may be retained unchanged if the conversion would result in a decrease in that equivalent value.

5. The amounts expressed in euro shall be reviewed by the Stabilisation and Association Committee at the request of the Community or of Serbia. When carrying out this review, the Stabilisation and Association Committee shall consider the desirability of preserving the effects of the limits concerned in real terms. For this purpose, it may decide to modify the amounts expressed in euro.

TITLE VI

ARRANGEMENTS FOR ADMINISTRATIVE COOPERATION

ARTICLE 32

Mutual assistance

1. The customs authorities of the Member States of the Community and of Serbia shall provide each other, through the European Commission, with specimen impressions of stamps used in their customs offices for the issue of movement certificates EUR.1 and with the addresses of the customs authorities responsible for verifying those certificates and invoice declarations.
2. In order to ensure the proper application of this Protocol, the Community and Serbia shall assist each other, through the competent customs administrations, in checking the authenticity of the movement certificates EUR.1 or the invoice declarations and the correctness of the information given in these documents.

ARTICLE 33

Verification of proofs of origin

1. Subsequent verifications of proofs of origin shall be carried out at random or whenever the customs authorities of the importing country have reasonable doubts as to the authenticity of such documents, the originating status of the products concerned or the fulfilment of the other requirements of this Protocol.
2. For the purposes of implementing the provisions of paragraph 1, the customs authorities of the importing country shall return the movement certificate EUR.1 and the invoice, if it has been submitted, the invoice declaration, or a copy of these documents, to the customs authorities of the exporting country giving, where appropriate, the reasons for the enquiry. Any documents and information obtained suggesting that the information given on the proof of origin is incorrect shall be forwarded in support of the request for verification.
3. The verification shall be carried out by the customs authorities of the exporting country. For this purpose, they shall have the right to call for any evidence and to carry out any inspection of the exporter's accounts or any other check considered appropriate.
4. If the customs authorities of the importing country decide to suspend the granting of preferential treatment to the products concerned while awaiting the results of the verification, release of the products shall be offered to the importer subject to any precautionary measures judged necessary.

5. The customs authorities requesting the verification shall be informed of the results of this verification as soon as possible. These results must indicate clearly whether the documents are authentic and whether the products concerned can be considered as products originating in the Community, in Serbia or in one of the other countries or territories referred to in Articles 3 and 4 and fulfil the other requirements of this Protocol.

6. If in cases of reasonable doubt there is no reply within ten months of the date of the verification request or if the reply does not contain sufficient information to determine the authenticity of the document in question or the real origin of the products, the requesting customs authorities shall, except in exceptional circumstances, refuse entitlement to the preferences.

ARTICLE 34

Dispute settlement

Where disputes arise in relation to the verification procedures of Article 33 which cannot be settled between the customs authorities requesting a verification and the customs authorities responsible for carrying out this verification or where they raise a question as to the interpretation of this Protocol, they shall be submitted to the Stabilisation and Association Committee.

In all cases the settlement of disputes between the importer and the customs authorities of the importing country shall be under the legislation of the said country.

ARTICLE 35

Penalties

Penalties shall be imposed on any person who draws up, or causes to be drawn up, a document which contains incorrect information for the purpose of obtaining a preferential treatment for products.

ARTICLE 36

Free zones

1. The Community and Serbia shall take all necessary steps to ensure that products traded under cover of a proof of origin which in the course of transport use a free zone situated in their territory, are not substituted by other goods and do not undergo handling other than normal operations designed to prevent their deterioration.
2. By means of an exemption to the provisions contained in paragraph 1, when products originating in the Community or in Serbia are imported into a free zone under cover of a proof of origin and undergo treatment or processing, the authorities concerned shall issue a new movement certificate EUR.1 at the exporter's request, if the treatment or processing undergone is in conformity with the provisions of this Protocol.

TITLE VII

CEUTA AND MELILLA

ARTICLE 37

Application of this Protocol

1. The term "Community" used in Article 2 does not cover Ceuta or Melilla.
2. Products originating in Serbia, when imported into Ceuta and Melilla, shall enjoy in all respects the same customs regime as that which is applied to products originating in the customs territory of the Community under Protocol 2 of the Act of Accession of the Kingdom of Spain and the Portuguese Republic to the European Communities. Serbia shall grant to imports of products covered by this Agreement and originating in Ceuta and Melilla the same customs regime as that which is granted to products imported from and originating in the Community.
3. For the purpose of the application of paragraph 2 concerning products originating in Ceuta and Melilla, this Protocol shall apply *mutatis mutandis* subject to the special conditions set out in Article 38.

ARTICLE 38

Special conditions

1. Providing they have been transported directly in accordance with the provisions of Article 13, the following shall be considered as:

1.1. products originating in Ceuta and Melilla:

- (a) products wholly obtained in Ceuta and Melilla;
- (b) products obtained in Ceuta and Melilla in the manufacture of which products other than those referred to in point (a) are used, provided that:
 - (i) the said products have undergone sufficient working or processing within the meaning of Article 6;
 - or that
 - (ii) those products are originating in Serbia or in the Community, provided that they have been submitted to working or processing which goes beyond the operations referred to in Article 7;

1.2. products originating in Serbia:

- (a) products wholly obtained in Serbia;
- (b) products obtained in Serbia, in the manufacture of which products other than those referred to in point (a) are used, provided that:
 - (i) the said products have undergone sufficient working or processing within the meaning of Article 6;

or that

- (ii) those products are originating in Ceuta and Melilla or in the Community, provided that they have been submitted to working or processing which goes beyond the operations referred to in Article 7.

2. Ceuta and Melilla shall be considered as a single territory.

3. The exporter or his authorised representative shall enter "Serbia" and "Ceuta and Melilla" in Box 2 of movement certificates EUR. 1 or on invoice declarations. In addition, in the case of products originating in Ceuta and Melilla, this shall be indicated in Box 4 of movement certificates EUR.1 or on invoice declarations.

4. The Spanish customs authorities shall be responsible for the application of this Protocol in Ceuta and Melilla.

TITLE VIII

FINAL PROVISIONS

ARTICLE 39

Amendments to this Protocol

The Stabilisation and Association Council may decide to amend the provisions of this Protocol.

INTRODUCTORY NOTES TO THE LIST IN ANNEX II

Note 1

The list sets out the conditions required for all products to be considered as sufficiently worked or processed within the meaning of Article 6 of Protocol 3.

Note 2

- 2.1. The first two columns in the list describe the product obtained. The first column gives the heading number or chapter number used in the Harmonised System and the second column gives the description of goods used in that system for that heading or chapter. For each entry in the first two columns, a rule is specified in column 3 or 4. Where, in some cases, the entry in the first column is preceded by an "ex", this signifies that the rules in column 3 or 4 apply only to the part of that heading as described in column 2.
- 2.2. Where several heading numbers are grouped together in column 1 or a chapter number is given and the description of products in column 2 is therefore given in general terms, the adjacent rules in column 3 or 4 apply to all products which, under the Harmonised System, are classified in headings of the chapter or in any of the headings grouped together in column 1.

- 2.3. Where there are different rules in the list applying to different products within a heading, each indent contains the description of that part of the heading covered by the adjacent rules in column 3 or 4.
- 2.4. Where, for an entry in the first two columns, a rule is specified in both columns 3 and 4, the exporter may opt, as an alternative, to apply either the rule set out in column 3 or that set out in column 4. If no origin rule is given in column 4, the rule set out in column 3 is to be applied.

Note 3

- 3.1. The provisions of Article 6 of Protocol 3, concerning products having acquired originating status which are used in the manufacture of other products, shall apply, regardless of whether this status has been acquired inside the factory where these products are used or in another factory in a contracting party.

Example:

An engine of heading 8407, for which the rule states that the value of the non-originating materials which may be incorporated may not exceed 40 per cent of the ex-works price, is made from "other alloy steel roughly shaped by forging" of heading ex 7224.

If this forging has been forged in the Community from a non-originating ingot, it has already acquired originating status by virtue of the rule for heading ex 7224 in the list. The forging can then count as originating in the value-calculation for the engine, regardless of whether it was produced in the same factory or in another factory in the Community. The value of the non-originating ingot is thus not taken into account when adding up the value of the non-originating materials used.

- 3.2. The rule in the list represents the minimum amount of working or processing required, and the carrying-out of more working or processing also confers originating status; conversely, the carrying-out of less working or processing cannot confer originating status. Thus, if a rule provides that non-originating material, at a certain level of manufacture, may be used, the use of such material at an earlier stage of manufacture is allowed, and the use of such material at a later stage is not.
- 3.3. Without prejudice to Note 3.2, where a rule uses the expression "Manufacture from materials of any heading", then materials of any heading(s) (even materials of the same description and heading as the product) may be used, subject, however, to any specific limitations which may also be contained in the rule.

However, the expression "Manufacture from materials of any heading, including other materials of heading ..." or "Manufacture from materials of any heading, including other materials of the same heading as the product" means that materials of any heading(s) may be used, except those of the same description as the product as given in column 2 of the list.

- 3.4. When a rule in the list specifies that a product may be manufactured from more than one material, this means that one or more materials may be used. It does not require that all be used.

Example:

The rule for fabrics of headings 5208 to 5212 provides that natural fibres may be used and that chemical materials, among other materials, may also be used. This does not mean that both have to be used; it is possible to use one or the other, or both.

- 3.5. Where a rule in the list specifies that a product must be manufactured from a particular material, the condition obviously does not prevent the use of other materials which, because of their inherent nature, cannot satisfy the rule. (See also Note 6.2 below in relation to textiles).

Example:

The rule for prepared foods of heading 1904, which specifically excludes the use of cereals and their derivatives, does not prevent the use of mineral salts, chemicals and other additives which are not products from cereals.

However, this does not apply to products which, although they cannot be manufactured from the particular materials specified in the list, can be produced from a material of the same nature at an earlier stage of manufacture.

Example:

In the case of an article of apparel of ex Chapter 62 made from non-woven materials, if the use of only non-originating yarn is allowed for this class of article, it is not possible to start from non-woven cloth – even if non-woven cloths cannot normally be made from yarn. In such cases, the starting material would normally be at the stage before yarn – that is, the fibre stage.

- 3.6. Where, in a rule in the list, two percentages are given for the maximum value of non-originating materials that can be used, then these percentages may not be added together. In other words, the maximum value of all the non-originating materials used may never exceed the higher of the percentages given. Furthermore, the individual percentages must not be exceeded, in relation to the particular materials to which they apply.

Note 4

- 4.1. The term "natural fibres" is used in the list to refer to fibres other than artificial or synthetic fibres. It is restricted to the stages before spinning takes place, including waste, and, unless otherwise specified, includes fibres which have been carded, combed or otherwise processed, but not spun.
- 4.2. The term "natural fibres" includes horsehair of heading 0503, silk of headings 5002 and 5003, as well as wool-fibres and fine or coarse animal hair of headings 5101 to 5105, cotton fibres of headings 5201 to 5203, and other vegetable fibres of headings 5301 to 5305.

4.3. The terms "textile pulp", "chemical materials" and "paper-making materials" are used in the list to describe the materials, not classified in Chapters 50 to 63, which can be used to manufacture artificial, synthetic or paper fibres or yarns.

4.4. The term "man-made staple fibres" is used in the list to refer to synthetic or artificial filament tow, staple fibres or waste, of headings 5501 to 5507.

Note 5

5.1. Where, for a given product in the list, reference is made to this Note, the conditions set out in column 3 shall not be applied to any basic textile materials used in the manufacture of this product and which, taken together, represent 10 % or less of the total weight of all the basic textile materials used. (See also Notes 5.3 and 5.4 below.)

5.2. However, the tolerance mentioned in Note 5.1 may be applied only to mixed products which have been made from two or more basic textile materials.

The following are the basic textile materials:

- silk,
- wool,
- coarse animal hair,

- fine animal hair,
- horsehair,
- cotton,
- paper-making materials and paper,
- flax,
- true hemp,
- jute and other textile bast fibres,
- sisal and other textile fibres of the genus *Agave*,
- coconut, abaca, ramie and other vegetable textile fibres,
- synthetic man-made filaments,
- artificial man-made filaments,
- current-conducting filaments,
- synthetic man-made staple fibres of polypropylene,

- synthetic man-made staple fibres of polyester,
- synthetic man-made staple fibres of polyamide,
- synthetic man-made staple fibres of polyacrylonitrile,
- synthetic man-made staple fibres of polyimide,
- synthetic man-made staple fibres of polytetrafluoroethylene,
- synthetic man-made staple fibres of poly(phenylene sulphide),
- synthetic man-made staple fibres of poly(vinyl chloride),
- other synthetic man-made staple fibres,
- artificial man-made staple fibres of viscose,
- other artificial man-made staple fibres,
- yarn made of polyurethane segmented with flexible segments of polyether, whether or not gimped,
- yarn made of polyurethane segmented with flexible segments of polyester, whether or not gimped,

- products of heading 5605 (metallised yarn) incorporating strip consisting of a core of aluminium foil or of a core of plastic film whether or not coated with aluminium powder, of a width not exceeding 5 mm, sandwiched by means of a transparent or coloured adhesive between two layers of plastic film,
- other products of heading 5605.

Example:

A yarn, of heading 5205, made from cotton fibres of heading 5203 and synthetic staple fibres of heading 5506, is a mixed yarn. Therefore, non-originating synthetic staple fibres which do not satisfy the origin-rules (which require manufacture from chemical materials or textile pulp) may be used, provided that their total weight does not exceed 10 % of the weight of the yarn.

Example:

A woollen fabric, of heading 5112, made from woollen yarn of heading 5107 and synthetic yarn of staple fibres of heading 5509, is a mixed fabric. Therefore, synthetic yarn which does not satisfy the origin-rules (which require manufacture from chemical materials or textile pulp), or woollen yarn which does not satisfy the origin-rules (which require manufacture from natural fibres, not carded or combed or otherwise prepared for spinning), or a combination of the two, may be used, provided that their total weight does not exceed 10 % of the weight of the fabric.

Example:

Tufted textile fabric, of heading 5802, made from cotton yarn of heading 5205 and cotton fabric of heading 5210, is a only mixed product if the cotton fabric is itself a mixed fabric made from yarns classified in two separate headings, or if the cotton yarns used are themselves mixtures.

Example:

If the tufted textile fabric concerned had been made from cotton yarn of heading 5205 and synthetic fabric of heading 5407, then, obviously, the yarns used are two separate basic textile materials and the tufted textile fabric is, accordingly, a mixed product.

- 5.3. In the case of products incorporating "yarn made of polyurethane segmented with flexible segments of polyether, whether or not gimped", this tolerance is 20 % in respect of this yarn.
- 5.4. In the case of products incorporating "strip consisting of a core of aluminium foil or of a core of plastic film whether or not coated with aluminium powder, of a width not exceeding 5 mm, sandwiched by means of a transparent or coloured adhesive between two layers of plastic film", this tolerance is 30 % in respect of this strip.

Note 6

- 6.1. Where, in the list, reference is made to this Note, textile materials (with the exception of linings and interlinings), which do not satisfy the rule set out in the list in column 3 for the made-up product concerned, may be used, provided that they are classified in a heading other than that of the product and that their value does not exceed 8 % of the ex-works price of the product.
- 6.2. Without prejudice to Note 6.3, materials, which are not classified within Chapters 50 to 63, may be used freely in the manufacture of textile products, whether or not they contain textiles.

Example:

If a rule in the list provides that, for a particular textile item (such as trousers), yarn must be used, this does not prevent the use of metal items, such as buttons, because buttons are not classified within Chapters 50 to 63. For the same reason, it does not prevent the use of slide-fasteners, even though slide-fasteners normally contain textiles.

- 6.3. Where a percentage-rule applies, the value of materials which are not classified within Chapters 50 to 63 must be taken into account when calculating the value of the non-originating materials incorporated.

Note 7

7.1. For the purposes of headings ex 2707, 2713 to 2715, ex 2901, ex 2902 and ex 3403, the "specific processes" are the following:

- (a) vacuum-distillation;
- (b) redistillation by a very thorough fractionation-process;
- (c) cracking;
- (d) reforming;
- (e) extraction by means of selective solvents;
- (f) the process comprising all of the following operations: processing with concentrated sulphuric acid, oleum or sulphuric anhydride; neutralisation with alkaline agents; decolourisation and purification with naturally-active earth, activated earth, activated charcoal or bauxite;
- (g) polymerisation;
- (h) alkylation;
- (i) isomerisation.

7.2. For the purposes of headings 2710, 2711 and 2712, the "specific processes" are the following:

- (a) vacuum-distillation;
- (b) redistillation by a very thorough fractionation-process;
- (c) cracking;
- (d) reforming;
- (e) extraction by means of selective solvents;
- (f) the process comprising all of the following operations: processing with concentrated sulphuric acid, oleum or sulphuric anhydride; neutralisation with alkaline agents; decolourisation and purification with naturally-active earth, activated earth, activated charcoal or bauxite;
- (g) polymerisation;
- (h) alkylation;
- (i) isomerisation;

- (j) in respect of heavy oils of heading ex 2710 only, desulphurisation with hydrogen, resulting in a reduction of at least 85 % of the sulphur-content of the products processed (ASTM D 1266-59 T method);
- (k) in respect of products of heading 2710 only, deparaffining by a process other than filtering;
- (l) in respect of heavy oils of heading ex 2710 only, treatment with hydrogen, at a pressure of more than 20 bar and a temperature of more than 250 °C, with the use of a catalyst, other than to effect desulphurisation, when the hydrogen constitutes an active element in a chemical reaction. The further treatment, with hydrogen, of lubricating oils of heading ex 2710 (e.g. hydrofinishing or decolourisation), in order, more especially, to improve colour or stability shall not, however, be deemed to be a specific process;
- (m) in respect of fuel oils of heading ex 2710 only, atmospheric distillation, on condition that less than 30 % of these products distils, by volume, including losses, at 300 °C, by the ASTM D 86 method;
- (n) in respect of heavy oils other than gas oils and fuel oils of heading ex 2710 only, treatment by means of a high-frequency electrical brush-discharge;
- (o) in respect of crude products (other than petroleum jelly, ozokerite, lignite wax or peat wax, paraffin wax containing by weight less than 0,75 % of oil) of heading ex 2712 only, de-oiling by fractional crystallisation.

7.3. For the purposes of headings ex 2707, 2713 to 2715, ex 2901, ex 2902 and ex 3403, simple operations, such as cleaning, decanting, desalting, water-separation, filtering, colouring, marking, obtaining a sulphur-content as a result of mixing products with different sulphur-contents, or any combination of these operations or like operations, do not confer origin.

PROTOCOL 4
ON LAND TRANSPORT

ARTICLE 1

Aim

The aim of this Protocol is to promote cooperation between the Parties on land transport, and in particular transit traffic, and to ensure for this purpose that transport between and through the territories of the Parties is developed in a coordinated manner by means of the complete and interdependent application of all the provisions of this Protocol.

ARTICLE 2

Scope

1. Cooperation shall cover land transport, and in particular road, rail and combined transport, and shall include the relevant infrastructure.
2. In this connection, the scope of this Protocol shall cover in particular:
 - transport infrastructure in the territory of one or other Party to the extent necessary to achieve the objective of this Protocol,

- market access, on a reciprocal basis, in the field of road transport,
- essential legal and administrative supporting measures including commercial, taxation, social and technical measures,
- cooperation in developing a transport system which meets environmental needs,
- a regular exchange of information on the development of the transport policies of the Parties, with particular regard to transport infrastructure.

ARTICLE 3

Definitions

For the purposes of this Protocol, the following definitions shall apply:

- (a) Community transit traffic: the carriage, by a carrier established in the Community, of goods in transit through the territory of Serbia "en route" to or from a Member State of the Community;

- (b) Serbian transit traffic: the carriage, by a carrier established in Serbia, of goods in transit from Serbia through Community territory and destined for a third country or of goods from a third country destined for Serbia;

- (c) combined transport: the transport of goods where the lorry, trailer, semi-trailer, with or without tractor unit, swap body or container of 20 feet or more, uses the road on the initial or final leg of the journey and on the other leg, rail or inland waterway or maritime services where this section exceeds 100 kilometres as the crow flies and make the initial or final road transport leg of the journey;
 - between the point where the goods are loaded and the nearest suitable rail loading station for the initial leg, and between the nearest suitable rail unloading station and the point where the goods are unloaded for the final leg, or

 - within a radius not exceeding 150 km as the crow flies from the inland waterway port or seaport of loading or unloading.

INFRASTRUCTURE

ARTICLE 4

General Provision

The Parties hereby agree to adopt mutually coordinated measures to develop a multimodal transport infrastructure network as a vital means of solving the problems affecting the carriage of goods through Serbia in particular on the Pan-European Corridors VII and X and the rail connection from Belgrade to Vrbnica (border with Montenegro) which form part of the Core Regional Transport Network.

ARTICLE 5

Planning

The development of a multimodal regional transport network on the territory of Serbia which serves the needs of Serbia and the South-Eastern European region covering the main road and rail routes, inland waterways, inland ports, ports, airports and other relevant modes of the network is of particular interest to the Community and Serbia. This network was defined in the Memorandum of Understanding for developing a Core Transport Infrastructure Network for South East Europe which was signed by ministers from the region, and the European Commission, in June 2004. The development of the network and the selection of priorities is being carried out by a Steering Committee comprised of representatives of each of the signatories.

ARTICLE 6

Financial aspects

1. The Community may contribute financially, under Article 116 of this Agreement, to the necessary infrastructure work referred to in Article 5. This financial contribution may take the form of credit from the European Investment Bank and any other form of financing which can provide further additional resources.

2. In order to speed up the work the European Commission will endeavour, as far as possible, to encourage the use of additional resources such as investment by certain Member States on a bilateral basis or from public or private funds.

RAIL AND COMBINED TRANSPORT

ARTICLE 7

General provision

The Parties shall adopt the mutually coordinated measures necessary for the development and promotion of rail and combined transport as a mean of ensuring that in the future a major proportion of their bilateral and transit transport through Serbia is performed under more environmentally-friendly conditions.

ARTICLE 8

Particular aspects relating to infrastructure

As part of the modernisation of the railways of Serbia, the necessary steps shall be taken to adapt the system for combined transport, with particular regard to the development or building of terminals, tunnel gauges and capacity, which require substantial investment.

ARTICLE 9

Supporting measures

The Parties shall take all the steps necessary to encourage the development of combined transport.

The purpose of such measures shall be:

- to encourage the use of combined transport by users and consignors,
- to make combined transport competitive with road transport, in particular through the financial support of the Community or Serbia in the context of their respective legislation,

- to encourage the use of combined transport over long distances and to promote, in particular the use of swap bodies, containers and unaccompanied transport in general,
- to improve the speed and reliability of combined transport and in particular:
 - to increase the frequency of convoys in accordance with the needs of consignors and users,
 - to reduce the waiting time at terminals and increase their productivity,
 - to remove in an appropriate manner, all obstacles from the approach routes so as to improve access to combined transport,
 - to harmonise, where necessary, the weights, dimensions and technical characteristics of specialised equipment, in particular so as to ensure the necessary compatibility of gauges, and to take coordinated action to order and to put into service such equipment as is required by the level of traffic,
 - and, in general, to take any other appropriate action.

ARTICLE 10

The role of the railways

In connection with the respective powers of the States and the railways, the Parties shall, in respect of both passenger and goods transport, recommend that their railways:

- step up cooperation, whether bilateral, multilateral or within international railway organisations, in all fields, with particular regard to the improvement of the quality and the safety of transport services,
- try to establish in common a system of organising the railways so as to encourage consignors to send freight by rail rather than road, in particular for transit purposes, on a basis of fair competition and while leaving the user freedom of choice in this matter,
- prepare the participation of Serbia in the implementation and future evolution of the Community acquis on the development of the railways.

ROAD TRANSPORT

ARTICLE 11

General Provisions

1. With regard to mutual access to transport markets, the Parties agree, initially and without prejudice to paragraph 2, to maintain the regime resulting from bilateral Agreements or other existing international bilateral instruments concluded between each Member State of the Community and Serbia or, where there are no such Agreements or instruments, arising from the de facto situation in 1991.

However, whilst awaiting the conclusion of Agreements between the Community and Serbia on access to the road transport market, as provided for in Article 12, and on road taxation, as provided for in Article 13(2), Serbia shall cooperate with the Member States of the Community to amend these bilateral Agreements to adapt them to this Protocol.

2. The Parties hereby agree to grant unrestricted access to Community transit traffic through Serbia and to Serbian transit traffic through the Community with effect from the date of entry into force of this Agreement.

3. If, as a result of the rights granted under paragraph 2, transit traffic by Community hauliers increases to such a degree as to cause or threaten to cause serious harm to road infrastructure and/or traffic fluidity on the axes mentioned in Article 5, and under the same circumstances problems arise on Community territory close to the borders of Serbia, the matter shall be submitted to the Stabilisation and Association Council in accordance with Article 121 of this Agreement. The Parties may propose exceptional temporary, non-discriminatory measures as are necessary to limit or mitigate such harm.

4. If the Community establishes rules aiming to reduce pollution caused by heavy goods vehicles registered in the European Union and to improve traffic safety, a similar regime shall apply to heavy goods vehicles registered in Serbia that wish to circulate through the Community territory. The Stabilisation and Association Council shall decide on the necessary modalities.

5. The Parties shall refrain from taking any unilateral action that might lead to discrimination between Community carriers or vehicles and carriers or vehicles from Serbia. Each Contracting Party shall take all steps necessary to facilitate road transport to or through the territory of the other Contracting Party.

ARTICLE 12

Access to the market

The Parties shall, as a matter of priority, undertake to work together to seek, each of them subject to their internal rules:

- courses of action likely to favour the development of a transport system which meets the needs of the Parties, and which is compatible, on the one hand, with the completion of the internal Community market and the implementation of the common transport policy and, on the other hand, with economic and transport policies of Serbia,
- a definitive system for regulating future road transport market access between Parties on the basis of reciprocity.

ARTICLE 13

Taxation, tolls and other charges

1. The Parties accept that the taxation of road vehicles, tolls and other charges on either side must be non-discriminatory.

2. The Parties shall enter into negotiations with a view to reaching an agreement on road taxation, as soon as possible, on the basis of the rules adopted by the Community on this matter. The purpose of this Agreement shall be, in particular, to ensure the free flow of trans-frontier traffic, to progressively eliminate differences between the road taxation systems applied by the Parties and to eliminate distortions of competition arising from such differences.

3. Pending the conclusion of the negotiations mentioned in paragraph 2 of this Article, the Parties will eliminate discrimination between hauliers of the Community and Serbia when levying taxes and charges on the circulation and/or possession of heavy goods vehicles as well as taxes or charges levied on transport operations in the territory of the Parties. Serbia undertakes to notify the European Commission, if so requested, the amount of taxes, tolls and charges which they apply, as well as the methods of calculating them.

4. Until the conclusion of the Agreement mentioned in paragraph 2 and in Article 12 any change proposed after the entry into force of this Agreement to fiscal charges, tolls or other charges, including the systems for their collection which may be applied to Community traffic in transit through Serbia will be subject to a prior consultation procedure.

ARTICLE 14

Weights and dimensions

1. Serbia accepts that road vehicles complying with Community standards on weights and dimensions may circulate freely and without hindrance in this respect on the routes covered by Article 5. During six months after the entry into force of this Agreement, road vehicles which do not comply with existing standards of Serbia may be subject to a special non-discriminatory charge which reflects the damage caused by additional axle weight.
2. Serbia will endeavour to harmonise their existing regulations and standards for road construction with the legislation prevailing in the Community by the end of the fifth year after the entry into force of this Agreement and will make major efforts for improvement of the existing routes covered by Article 5 to those new regulations and standards within the proposed time, in accordance with their financial possibilities.

ARTICLE 15

Environment

1. In order to protect the environment, the Parties shall endeavour to introduce standards on gaseous and particulate emissions and noise levels for heavy goods vehicles, which ensure a high level of protection.

2. In order to provide the industry with clear information and to encourage coordinated research, programming and production, exceptional national standards in this field shall be avoided.
3. Vehicles which comply with standards laid down by international Agreements also relating to environment may operate without further restrictions in the territory of the Parties.
4. For the purpose of introducing new standards, the Parties shall work together to achieve the abovementioned objectives.

ARTICLE 16

Social aspects

1. Serbia shall harmonise their legislations on the training of road haulage personnel, particularly with respect to the carriage of dangerous goods, to the Community standards.
2. Serbia as a contracting party to the European Agreement concerning the work of crews of vehicles engaged in international road transport (ERTA), and the Community will coordinate to the maximum extent possible their policies concerning driving time, interruptions and rest periods for drivers and crew composition, in respect of the future development of the social legislation in this area.

3. The Parties shall cooperate with regard to implementation and enforcement of the social legislation in the field of road transport.

4. The Parties shall ensure the equivalence of their respective laws on the admission to the occupation of road haulage operator, with a view to their mutual recognition.

ARTICLE 17

Provisions relating to traffic

1. The Parties shall pool their experience and endeavour to harmonise their legislation so as to improve the flow of traffic during peak periods (weekends, public holidays, the tourist season).

2. In general, the Parties shall encourage the introduction, development and coordination of a road traffic information system.

3. They shall endeavour to harmonise their legislation on the carriage of perishable goods, live animals and dangerous substances.

4. The Parties shall also endeavour to harmonise the technical assistance to be provided to drivers, the dissemination of essential information on traffic and other matters of concern to tourists, and emergency services including ambulance services.

ARTICLE 18

Road Safety

1. Serbia shall harmonise their legislation on road safety, particularly with regard to the transport of dangerous goods, to that of the Community by the end of the third year after the entry into force of this Agreement.
2. Serbia as a contracting Party of the European Agreement concerning the International Carriage of Dangerous Goods by Road (ADR) and the Community will coordinate to the maximum extent possible their policies concerning the carriage of dangerous goods.
3. The Parties shall cooperate with regard to implementation and enforcement of road safety legislation, particularly on driving licences and measures to reduce road accidents.

SIMPLIFICATION OF FORMALITIES

ARTICLE 19

Simplification of formalities

1. The Parties agree to simplify the flow of goods by rail and road, whether bilateral or in transit.
2. The Parties agree to begin negotiations with a view to concluding an Agreement on the facilitation of controls and formalities relating to the carriage of goods.
3. The Parties agree, to the extent necessary, to take joint action on, and to encourage, the adoption of further simplification measures.

FINAL PROVISIONS

ARTICLE 20

Widening of the scope

If one of the Parties concludes, on the basis of experience in the application of this Protocol, that other measures which do not fall within the scope of this Protocol are in the interest of a coordinated European transport policy and, in particular, may help to solve the problem of transit traffic, it shall make suggestions in this respect to the other Party.

ARTICLE 21

Implementation

1. Cooperation between the Parties shall be carried out within the framework of a special Subcommittee to be created in accordance with Article 123 of this Agreement.
2. This Subcommittee in particular:
 - (a) shall draw up plans for cooperation on rail and combined transport, transport research and the environment;

- (b) shall analyse the application of the decisions contained in the present Protocol and shall recommend to the Stabilisation and Association Committee appropriate solutions for any possible problems which might arise;
- (c) shall, two years after the entry into force of this Agreement, undertake an assessment of the situation as regards infrastructure improvement and the implications of free transit;
- (d) shall coordinate the monitoring, forecasting and other statistical work relating to international transport and in particular transit traffic.

JOINT DECLARATION

1. The Community and Serbia take note that the levels of gaseous emissions and noise currently accepted in the Community for the purposes of heavy goods vehicle type approval from 9.11.2006¹ are as follows²:

Limit values measured on the European Steady Cycle (ESC) and the European Load Response (ELR) test:

		Mass of carbon monoxide	Mass of hydrocarbons	Mass of nitrogen oxides	Mass of particulates	Smoke
		(CO) g/kWh	(HC) g/kWh	(NOx) g/kWh	(PT) g/kWh	m ⁻¹
Row B1	Euro IV	1,5	0,46	3,5	0,02	0,5

¹ Directive 2005/55/EC of the European Parliament and of the Council of 28 September 2005 on type approval of heavy duty vehicles and engines with respect to their emissions (Euro IV and V) (OJ L 275, 20.10.2005 p. 1). Directive as amended by Regulation (EC) No 715/2007 (OJ L 171, 29.6.2007, p. 1).

² These limit values will be updated as provided for in the relevant directives and according to their possible future revisions.

Limit values measured on the European Transient Cycle (ETC):

		Mass of carbon monoxide	Mass of non-methane hydrocarbons	Mass of methane	Mass of nitrogen oxides	Mass of particulates
		(CO) g/kWh	(NMHC) g/kWh	(CH4) (a) g/kWh	(NOx) g/kWh	(PT) (b) g/kWh
Row B1	Euro IV	4,0	0,55	1,1	3,5	0,03

(a) For natural gas engines only;

(b) Not applicable for gas fuelled engines.

- In the future, the Community and Serbia shall endeavour to reduce the emissions of motor vehicles through the use of state of the art vehicle emission control technology coupled with improved quality of motor fuel.

PROTOCOL 5
ON STATE AID TO THE STEEL INDUSTRY

1. The Parties recognise the need that Serbia addresses promptly any structural weaknesses of its steel sector to ensure the global competitiveness of its industry.

2. Further to the disciplines stipulated by paragraph 1(iii) of Article 73 of this Agreement, the assessment of the compatibility of State aid to the steel industry as defined in Annex I of the Guidelines on national regional aid for 2007-2013 shall be made on the basis of the criteria arising from the application of Article 87 of the EC Treaty to the steel sector, including secondary legislation.

3. For the purposes of applying the provisions of paragraph 1(iii) of Article 73 of this Agreement with regard to the steel industry, the Community recognises that, during five years after the entry into force of this Agreement, Serbia may exceptionally grant State aid for restructuring purposes to steel producing firms in difficulties, provided that:
 - (a) it leads to the long-term viability of the benefiting firms under normal market conditions at the end of the restructuring period; and
 - (b) the amount and intensity of such aid are strictly limited to what is absolutely necessary in order to restore such viability, and aid is where appropriate progressively reduced;
 - (c) Serbia presents restructuring programmes that are linked to a global rationalisation which includes the closing of inefficient capacity. Every steel producing firm benefiting from restructuring aid shall, as far as possible, provide for compensatory measures balancing the distortion of competition caused by the aid.

4. Serbia shall submit to the European Commission for assessment a National Restructuring Programme and individual business plans for each of the companies benefiting from restructuring aid which demonstrate that the above conditions are fulfilled.

The individual business plans shall have been assessed and agreed by the State aid monitoring authority of Serbia in view of their compliance with paragraph 3 of this Protocol.

The European Commission shall confirm that the National Restructuring Programme is in compliance with the requirements of paragraph 3.

5. The European Commission shall monitor the implementation of the plans, in close cooperation with the competent national authorities, in particular the State aid monitoring authority of Serbia.

If the monitoring indicates that aid to the beneficiaries which is not approved in the National Restructuring Programme or any restructuring aid to steel firms not identified in the National Restructuring Programme has been granted from the date of signature of this Agreement onwards, the State aid monitoring authority of Serbia shall ensure that any such aid is reimbursed.

6. Upon request, the Community shall provide Serbia with technical support for the preparation of the National Restructuring Programme and the individual business plans.

7. Each Party shall ensure full transparency with respect to State aid. In particular, as regards State aid granted to steel production in Serbia and the implementation of the restructuring programme and the business plans, a full and continuous exchange of information shall take place.

8. The Stabilisation and Association Council shall monitor the implementation of the requirements set out in paragraphs 1 to 4 above. To this effect, the Stabilisation and Association Council may draft implementing rules.

9. If one of the Parties considers that a particular practice of the other Party is incompatible with the terms of this Protocol, and if that practice causes or threatens to cause prejudice to the interests of the first Party or material injury to its domestic industry, this Party may take appropriate measures after consultation within the Subcommittee dealing with competition matters or after thirty working days following referral for such consultation.

- (a) to deliver any documents; or
- (b) to notify any decisions,

emanating from the applicant authority and falling within the scope of this Protocol, to an addressee residing or established in the territory of the requested authority.

Requests for delivery of documents or notification of decisions shall be made in writing in an official language of the requested authority or in a language acceptable to that authority.

ARTICLE 6

Form and substance of requests for assistance

1. Requests pursuant to this Protocol shall be made in writing. They shall be accompanied by the documents necessary to enable compliance with the request. When required because of the urgency of the situation, oral requests may be accepted, but must be confirmed in writing immediately.

2. Requests pursuant to paragraph 1 shall include the following information:

- (a) the applicant authority;
- (b) the measure requested;
- (c) the object of and the reason for the request;
- (d) the legal or regulatory provisions and other legal elements involved;
- (e) indications as exact and comprehensive as possible on the natural or legal persons who are the target of the investigations;
- (f) a summary of the relevant facts and of the enquiries already carried out.

3. Requests shall be submitted in an official language of the requested authority or in a language acceptable to that authority. This requirement shall not apply to any documents that accompany the request under paragraph 1.

4. If a request does not meet the formal requirements set out above, its correction or completion may be requested; in the meantime precautionary measures may be ordered.

ARTICLE 7

Execution of requests

1. In order to comply with a request for assistance, the requested authority shall proceed, within the limits of its competence and available resources, as though it were acting on its own account or at the request of other authorities of that same Party, by supplying information already possessed, by carrying out appropriate enquiries or by arranging for them to be carried out. This provision shall also apply to any other authority to which the request has been addressed by the requested authority when the latter cannot act on its own.
2. Requests for assistance shall be executed in accordance with the legal or regulatory provisions of the requested Party.
3. Duly authorised officials of a Party may, with the agreement of the other Contracting Party involved and subject to the conditions laid down by the latter, be present to obtain in the offices of the requested authority or any other concerned authority in accordance with paragraph 1, information relating to activities that are or may be operations in breach of customs legislation which the applicant authority needs for the purposes of this Protocol.
4. Duly authorised officials of a Party involved may, with the agreement of the other Party involved and subject to the conditions laid down by the latter, be present at enquiries carried out in the latter's territory.

ARTICLE 8

Form in which information is to be communicated

1. The requested authority shall communicate results of enquiries to the applicant authority in writing together with relevant documents, certified copies or other items.
2. This information may be in computerised form.
3. Original documents shall be transmitted only upon request in cases where certified copies would be insufficient. These originals shall be returned at the earliest opportunity.

ARTICLE 9

Exceptions to the obligation to provide assistance

1. Assistance may be refused or may be subject to the satisfaction of certain conditions or requirements, in cases where a Party is of the opinion that assistance under this Protocol would:
 - (a) be likely to prejudice the sovereignty of Serbia or that of a Member State which has been requested to provide assistance under this Protocol; or
 - (b) be likely to prejudice public policy, security or other essential interests, in particular in the cases referred to under Article 10(2); or
 - (c) violate an industrial, commercial or professional secret.

2. Assistance may be postponed by the requested authority on the ground that it will interfere with an ongoing investigation, prosecution or proceeding. In such a case, the requested authority shall consult with the applicant authority to determine if assistance can be given subject to such terms or conditions as the requested authority may require.
3. Where the applicant authority seeks assistance which it would itself be unable to provide if so requested, it shall draw attention to that fact in its request. It shall then be for the requested authority to decide how to respond to such a request.
4. For the cases referred to in paragraphs 1 and 2, the decision of the requested authority and the reasons therefor must be communicated to the applicant authority without delay.

ARTICLE 10

Information exchange and confidentiality

1. Any information communicated in whatsoever form pursuant to this Protocol shall be of a confidential or restricted nature, depending on the rules applicable in each of the Parties. It shall be covered by the obligation of official secrecy and shall enjoy the protection extended to similar information under the relevant laws of the Party that received it and the corresponding provisions applying to the Community authorities.

2. Personal data may be exchanged only where the Party which may receive them undertakes to protect such data in at least an equivalent way to the one applicable to that particular case in the Party that may supply them. To that end, the Parties shall communicate to each other information on their applicable rules, including, where appropriate, legal provisions in force in the Member States of the Community.

3. The use, in judicial or administrative proceedings instituted in respect of operations in breach of customs legislation, of information obtained under this Protocol, is considered to be for the purposes of this Protocol. Therefore, the Parties may, in their records of evidence, reports and testimonies and in proceedings and charges brought before the courts, use as evidence information obtained and documents consulted in accordance with the provisions of this Protocol. The competent authority which supplied that information or gave access to those documents shall be notified of such use.

4. Information obtained shall be used solely for the purposes of this Protocol. Where one of the Parties wishes to use such information for other purposes, it shall obtain the prior written consent of the authority which provided the information. Such use shall then be subject to any restrictions laid down by that authority.

ARTICLE 11

Experts and witnesses

An official of a requested authority may be authorised to appear, within the limitations of the authorisation granted, as an expert or witness in judicial or administrative proceedings regarding the matters covered by this Protocol, and produce such objects, documents or certified copies thereof, as may be needed for the proceedings. The request for appearance must indicate specifically before which judicial or administrative authority the official will have to appear, on what matters and by virtue of what title or qualification the official will be questioned.

ARTICLE 12

Assistance expenses

The Parties shall waive all claims on each other for the reimbursement of expenses incurred pursuant to this Protocol, except, as appropriate, for expenses to experts and witnesses, and those to interpreters and translators who are not public service employees.

ARTICLE 13

Implementation

1. The implementation of this Protocol shall be entrusted on the one hand to the customs authorities of Serbia and on the other hand to the competent services of the European Commission and the customs authorities of the Member States as appropriate. They shall decide on all practical measures and arrangements necessary for its application, taking into consideration the rules in force in particular in the field of data protection. They may recommend to the competent bodies amendments which they consider should be made to this Protocol.
2. The Parties shall consult each other and subsequently keep each other informed of the detailed rules of implementation which are adopted in accordance with the provisions of this Protocol.

ARTICLE 14

Other Agreements

1. Taking into account the respective competencies of the Community and the Member States, the provisions of this Protocol shall:
 - (a) not affect the obligations of the Parties under any other international Agreement or Convention;

(b) be deemed complementary to Agreements on mutual assistance which have been or may be concluded between individual Member States and Serbia; and shall

(c) not affect the Community provisions governing the communication between the competent services of the European Commission and the customs authorities of the Member States of any information obtained under this Protocol which could be of interest to the Community.

2. Notwithstanding the provisions of paragraph 1, the provisions of this Protocol shall take precedence over the provisions of any bilateral Agreement on mutual assistance which has been or may be concluded between individual Member States and Serbia insofar as the provisions of the latter are incompatible with those of this Protocol.

3. In respect of questions relating to the applicability of this Protocol, the Parties shall consult each other to resolve the matter in the framework of the Stabilisation and Association Committee set up under Article 119 of this Agreement.

PROTOCOL 7

- (a) Title IV (Free movement of goods), except Articles 33, 40, 41, paragraphs 1, 4 and 5 (insofar as these concern measures adopted under paragraph 1 of Article 41) and Article 47;

CHAPTER II

DISPUTE SETTLEMENT PROCEDURES

SECTION I

ARBITRATION PROCEDURE

ARTICLE 3

Initiation of the arbitration procedure

1. Where the Parties have failed to resolve the dispute, the complaining Party may under the conditions of Article 130 of this Agreement, submit a request in writing for the establishment of an arbitration panel to the Party complained against as well as to the Stabilisation and Association Committee.
2. The complaining Party shall state in its request the subject-matter of the dispute and, as the case may be, the measure adopted by the other Party, or the failure to act, which it considers to be in breach of the provisions referred to in Article 2.

ARTICLE 4

Composition of the arbitration panel

1. An arbitration panel shall be composed of three arbitrators.
2. Within ten days of the date of the submission of the request for the establishment of an arbitration panel to the Stabilisation and Association Committee, the Parties shall consult in order to reach an agreement on the composition of the arbitration panel.
3. In the event that the Parties are unable to agree on its composition within the time frame laid down in paragraph 2, either Party may request the chairperson of the Stabilisation and Association Committee, or her or his delegate, to select all three members by lot from the list established under Article 15, one among the individuals proposed by the complaining Party, one among the individuals proposed by the Party complained against and one among the arbitrators selected by the Parties to act as chairperson.

In case the Parties agree on one or more of the members of the arbitration panel, any remaining members shall be appointed in accordance with the same procedure.

4. The selection of the arbitrators by the chairperson of the Stabilisation and Association Committee, or her or his delegate, shall be done in the presence of a representative of each Party.

5. The date of establishment of the arbitration panel shall be the date on which the chairperson of the panel is informed of the appointment in common agreement between the Parties of the three arbitrators or, as the case may be, the date of their selection in accordance with paragraph 3.

6. Where a Party considers that an arbitrator does not comply with the requirements of the Code of Conduct referred to in Article 18, the Parties shall consult and, if they so agree, replace the arbitrator and select a replacement pursuant to paragraph 7. If the Parties fail to agree on the need to replace an arbitrator, the matter shall be referred to the chairperson of the arbitration panel, whose decision will be final.

Where a Party considers that the chairperson of the arbitration panel does not comply with the Code of Conduct referred to in Article 18, the matter shall be referred to one of the remaining members of the pool of arbitrators selected to act as chairperson, her or his name being drawn by lot by the chairperson of the Stabilisation and Association Committee, or her or his delegate, in the presence of a representative of each Party, unless otherwise agreed between the Parties.

7. If an arbitrator is unable to participate in the proceeding, withdraws or is replaced pursuant to paragraph 6, a replacement shall be selected within five days in accordance with the selection procedures followed to select the original arbitrator. The panel proceedings will be suspended for the period taken to carry out this procedure.

ARTICLE 5

Arbitration panel ruling

1. The arbitration panel shall notify its ruling to the Parties and to the Stabilisation and Association Committee within 90 days from the date of the establishment of the arbitration panel. Where it considers that this deadline cannot be met, the chairperson of the panel must notify the Parties and the Stabilisation and Association Committee in writing, stating the reasons for the delay. Under no circumstances should the ruling be issued later than 120 days from the date of the establishment of the panel.
2. In cases of urgency, including those involving perishable goods, the arbitration panel shall make every effort to issue its ruling within 45 days from the date of the establishment of the panel. Under no circumstance should it take longer than 100 days from the date of the establishment of the panel. The arbitration panel may give a preliminary ruling within ten days of its establishment on whether it deems the case to be urgent.
3. The ruling shall set out the findings of fact, the applicability of the relevant provisions of this Agreement and the basic rationale behind any findings and conclusions that it makes. The ruling may contain recommendations on the measures to be adopted for compliance with it.

4. The complaining Party may withdraw its complaint by written notification to the chairperson of the arbitration panel, the Party complained against and the Stabilisation and Association Committee, at any time before the ruling is notified to the Parties and the Stabilisation and Association Committee. Such withdrawal is without prejudice to the complaining Party's right to introduce a new complaint regarding the same measure at a later point in time.

5. The arbitration panel shall, at the request of both Parties, suspend its work at any time for a period not exceeding 12 months. Once the period of 12 months has been exceeded, the authority for the establishment of the panel will lapse, without prejudice to the right of the complaining Party to request at a later stage the establishment of a panel on the same measure.

SECTION II

COMPLIANCE

ARTICLE 6

Compliance with the arbitration panel ruling

Each Party shall take any measure necessary to comply with the arbitration panel ruling, and the Parties will endeavour to agree on the reasonable period of time to comply with the ruling.

ARTICLE 7

Reasonable period of time for compliance

1. No later than 30 days after the notification of the arbitration panel ruling to the Parties, the Party complained against shall notify the complaining Party of the time it will require for compliance (hereinafter referred to as "reasonable period of time"). Both parties shall endeavour to agree on the reasonable period of time.
2. If there is disagreement between the Parties on the reasonable period of time to comply with the arbitration panel ruling, the complaining Party may request the Stabilisation and Association Committee, within 20 days of the notification made under paragraph 1, to reconvene the original arbitration panel to determine the length of the reasonable period of time. The arbitration panel shall notify its ruling within 20 days from the date of the submission of the request.
3. In the event of the original panel, or some of its members, being unable to reconvene, the procedures set out in Article 4 shall apply. The time limit for notifying the ruling remains 20 days from the date of the panel's establishment.

ARTICLE 8

Review of any measure taken to comply with the arbitration panel ruling

1. The Party complained against shall notify the other Party and the Stabilisation and Association Committee before the end of the reasonable period of time of any measure that it has taken to comply with the arbitration panel ruling.
2. In the event that there is disagreement between the Parties concerning the compatibility of any measure notified under paragraph 1 of this Article, with the provisions referred to in Article 2, the complaining Party may request the original arbitration panel to rule on the matter. Such request shall explain why the measure is not in conformity with this Agreement. Once re-convened, the arbitration panel will issue its ruling within 45 days of the date of its re-establishment.
3. In the event of the original arbitration panel, or some of its members, being unable to reconvene, the procedures laid down in Article 4 shall apply. The time limit for notifying the ruling remains 45 days from the date of the panel's establishment.

ARTICLE 9

Temporary remedies in case of non-compliance

1. If the Party complained against fails to notify any measure taken to comply with the arbitration panel ruling before the expiry of the reasonable period of time, or if the arbitration panel rules that the measure notified under Article 8 paragraph 1 is not in conformity with that Party's obligations under this Agreement, the Party complained against shall, if so requested by the complaining Party, present an offer for temporary compensation.
2. If no agreement on compensation is reached within 30 days of the end of the reasonable period of time, or of the arbitration panel ruling under Article 8 that a measure taken to comply is not in conformity with this Agreement, the complaining Party shall be entitled, upon notification to the other Party and to the Stabilisation and Association Committee, to suspend the application of benefits granted under the provisions referred to in Article 2 of this Protocol at a level equivalent to the adverse economic impact caused by the violation. The complaining Party may implement the suspension ten days after the date of the notification, unless the Party complained against has requested arbitration under paragraph 3.

3. If the Party complained against considers that the level of suspension is not equivalent to the adverse economic impact caused by the violation, it may request in writing to the chairperson of the original arbitration panel before the expiry of the ten day period referred to in paragraph 2 for the reconvening of the original arbitration panel. The arbitration panel shall notify its ruling on the level of the suspension of benefits to the Parties and to the Stabilisation and Association Committee within 30 days of the date of the submission of the request. Benefits shall not be suspended until the arbitration panel has issued its ruling, and any suspension shall be consistent with the ruling of the arbitration panel.

4. The suspension of benefits shall be temporary and shall be applied only until any measure found to violate this Agreement has been withdrawn or amended so as to bring it into conformity with this Agreement, or until the Parties have agreed to settle the dispute.

ARTICLE 10

Review of any measure taken to comply after the suspension of benefits

1. The Party complained against shall notify the other Party and the Stabilisation and Association Committee of any measure it has taken to comply with the ruling of the arbitration panel and of its request for an end to the suspension of benefits applied by the complaining Party.

2. If the Parties do not reach an agreement on the compatibility of the notified measure with this Agreement within 30 days of the date of the submission of the notification, the complaining Party may request in writing to the chairperson of the original arbitration panel to rule on the matter. Such request shall be notified simultaneously to the other Party and to the Stabilisation and Association Committee. The arbitration panel ruling shall be notified within 45 days of the date of the submission of the request. If the arbitration panel rules that any measure taken to comply is not in conformity with this Agreement, the arbitration panel will determine whether the complaining party can continue the suspension of benefits at the original or at a different level. If the arbitration panel rules that any measure taken to comply is in conformity with this Agreement, the suspension of benefits shall be terminated.

3. In the event of the original arbitration panel, or some of its members, being unable to reconvene, the procedures laid down in Article 4 shall apply. The period for notifying the ruling remains 45 days from the date of the panel's establishment.

SECTION III

COMMON PROVISIONS

ARTICLE 11

Open Hearings

The meetings of the arbitration panel shall be open to the public under the conditions laid down in the Rules of Procedure referred to in Article 18, unless the arbitration panel decides otherwise on its own motion or at the request of the Parties.

ARTICLE 12

Information and technical advice

At the request of a Party, or upon its own initiative, the panel may seek information from any source it deems appropriate for the panel proceeding. The panel will also have the right to seek the opinion of experts as it deems appropriate. Any information obtained in this manner must be disclosed to both Parties and shall be open for comments. Interested parties shall be authorised to submit *amicus curiae* briefs to the arbitration panel under the conditions laid down in the Rules of Procedure referred to in Article 18.

ARTICLE 13

Interpretation principles

Arbitration panels shall apply and interpret the provisions of this Agreement in accordance with customary rules of interpretation of public international law, including the Vienna Convention on the Law of Treaties. They shall not give an interpretation of the *acquis communautaire*. The fact that a provision is identical in substance to a provision of the Treaty establishing the European Communities shall not be decisive in the interpretation of that provision.

ARTICLE 14

Arbitration panel decisions and rulings

1. All decisions of the arbitration panel, including the adoption of the ruling, shall be taken by majority vote.
2. All rulings of the arbitration panel shall be binding on the Parties. They shall be notified to the Parties and to the Stabilisation and Association Committee, which shall make them publicly available unless it decides by consensus not to do so.

CHAPTER III

GENERAL PROVISIONS

ARTICLE 15

List of arbitrators

1. The Stabilisation and Association Committee shall, no later than six months after the entry into force of this Protocol, establish a list of fifteen individuals who are willing and able to serve as arbitrators. Each of the Parties shall select five individuals to serve as arbitrators. The Parties shall also agree on five individuals which shall act as chairperson to arbitration panels. The Stabilisation and Association Committee will ensure that the list is always maintained at this level.
2. Arbitrators should have specialised knowledge and experience of law, international law, Community law and/or international trade. They shall be independent, serve in their individual capacities and not be affiliated with, or take instructions from any organisation or government, and shall comply with the Code of Conduct referred to in Article 18.

ARTICLE 16

Relation with WTO obligations

Upon the eventual accession of Serbia to the World Trade Organisation (WTO), the following shall apply:

- (a) Arbitration panels set up under this Protocol shall not adjudicate disputes on each Party's rights and obligations under the Agreement establishing the World Trade Organisation;
- (b) The right of any of the Parties to have recourse to the dispute settlement provisions of this Protocol shall be without prejudice to any action in the WTO framework, including dispute settlement action. However, where a Party has, with regard to a particular measure, instituted a dispute settlement proceeding, either under Article 3(1) of this Protocol or under the WTO Agreement, it may not institute a dispute settlement proceeding regarding the same measure in the other forum until the first proceeding has ended. For purposes of this paragraph, dispute settlement proceedings under the WTO Agreement are deemed to be initiated by a Party's request for the establishment of a panel under Article 6 of the Understanding on Rules and Procedures Governing the Settlement of Disputes of the WTO;
- (c) Nothing in this Protocol shall preclude a Party from implementing the suspension of obligations authorised by a WTO Dispute Settlement Body.

ARTICLE 17

Time limits

1. All time limits laid down in this Protocol shall be counted in calendar days from the day following the act or fact to which they refer.
2. Any time limit referred to in this Protocol may be extended by mutual agreement of the Parties.
3. Any deadline referred to in this Protocol may also be extended by the chairperson of the arbitration panel, on a reasoned request of either of the Parties or upon his or her own initiative.

ARTICLE 18

Rules of Procedure, Code of Conduct and modification of this Protocol

1. The Stabilisation and Association Council shall, no later than six months after the entry into force of this Protocol, establish Rules of Procedure for the conduct of the arbitration panel proceedings.

2. The Stabilisation and Association Council shall, no later than six months after the entry into force of this Protocol, complement the Rules of Procedure with a Code of Conduct guaranteeing the independence and impartiality of arbitrators.

3. The Stabilisation and Association Council may decide to modify this Protocol, except Article 2.

Declaration by the Community and its Member States.

Done at Luxembourg on the twenty-ninth day of April in the year two thousand and eight.

JOINT DECLARATIONS

Joint Declaration on Article 3

The Parties to this Stabilisation and Association Agreement, the European Communities and their Member States, of the one part, and the Republic of Serbia, of the other part, consider that the proliferation of weapons of mass destruction (hereinafter referred to as "WMD") and their means of delivery, both at state and non-state actors level, represents one of the most serious threats to international peace, stability and security as confirmed by United Nations Security Council adopted Resolution 1540(2004). Non-proliferation of WMD is therefore a joint concern for the European Communities and their member states and Serbia.

The fight against the proliferation of WMD and their means of delivery also constitutes a fundamental element for the European Union when it considers the decision of entering into an agreement with a third country. This is why the Council decided on 17 November 2003 that a non-proliferation clause should be inserted in the new Agreements with third countries and agreed on a text of standard clause (see Council document 14997/03). Such a clause has since been inserted in the European Union's agreements with nearly one hundred countries.

The European Union and the Republic of Serbia, as responsible members of the international community, reaffirm their full commitment to the principle of non-proliferation of the WMD and their means of delivery and to the full implementation of their international obligations arising out of international instruments to which they adhere.

It is in this spirit and in line with the above stated general EU policy and Serbian commitment to the principle of non-proliferation of the weapons of mass destruction and their means of delivery, both Parties agreed to include, in Article 3 of this Agreement, the standard clause on WMD as set out by the Council of the European Union.

Joint declaration on Article 32

The purpose of measures defined in Article 32 is to monitor the trade of products with high content of sugar that could be used for further processing and to prevent the possible distortion in patterns of trade of sugar and products not having characteristics essentially different to the characteristics of sugar.

That Article should be interpreted in such a manner that does not disturb or disturbs to the least possible scale the trade in products intended for final consumption.

Joint Declaration on Article 75

The Parties agree that for the purpose of this Agreement, intellectual and industrial property includes in particular copyright, including the copyright in computer programmes, and neighbouring rights, the rights relating to databases, patents including supplementary protection certificates, industrial designs, trademarks and service marks, topographies of integrated circuits, geographical indications, including appellation of origins, and plant variety rights.

The protection of commercial property rights includes in particular the protection against unfair competition as referred to in Article 10bis of the Paris Convention for the Protection of Industrial Property and the protection of undisclosed information as referred to in Article 39 of the Agreement on Trade Related Aspects of Intellectual Property Rights (TRIPS Agreement).

The Parties further agree that the level of protection referred to in Article 75, paragraph 3, shall include the availability of the measures, procedures and remedies provided for in Directive 2004/48/EC of the European Parliament and of the Council of 29 April 2004 on the enforcement of intellectual property rights¹.

Declaration by the Community and its Member States

Considering that exceptional trade measures are granted by the Community to countries participating or linked to the EU Stabilisation and Association process including Serbia on the basis of Regulation (EC) No 2007/2000, the Community and its Member States declare:

- that, in application of Article 35 of this Agreement, those of the unilateral autonomous trade measures which are more favourable shall apply in addition to the contractual trade concessions offered by the Community in this Agreement as long as Council Regulation (EC) No 2007/2000 of 18 September 2000 introducing exceptional trade measures for countries and territories participating in or linked to the European Union's Stabilisation and Association process², applies,
- that, in particular, for the products covered by Chapters 7 and 8 of the Combined Nomenclature, for which the Common Customs Tariff provides for the application of ad valorem customs duties and a specific customs duty, the reduction shall apply also to the specific customs duty in derogation from the relevant provision of Article 26 paragraph 2.
